## CRESTLINER

FULL-LINE BOAT MAGAZINE & CATALOG

That's what our Built
Right philosophy is all
about: Crestliners aren't
just well-constructed,
they're built to support
your unique style of
on-water recreation.

lease allow me to introduce myself. I'm Cecil Cohn, the new president of Crestliner. I couldn't be more proud or excited to be a representative of this legendary brand, with more than 65 years of quality boat-building to look back on. And that legacy of success continues today; I have joined this incredible team at a moment when Crestliner is firing on all cylinders.

What exactly do I mean? For starters, we have an array of new products making their debut in this edition of Crestliner's magazine and catalog, which for the first time features both our deep-V and mod-V lineups in one comprehensive collection. I'm proud to introduce the 2200 Bay, a rugged center console that is ideal for venturing out into nearshore fisheries (page 2). Crestliner's crack team of product developers have also been hard at work revamping the Sportfish, Fish Hawk and VT Series, as well as the TC 18 (page 10). If you consider the string of launches over the past few years, Crestliner's entire Built Right lineup is incredibly fresh-reflecting our forward-thinking approach and technological advancements.

In fact, I think you can sense everything we stand for in how we design our boats. To wear the Crestliner emblem, our boats must foster the confidence in their owners to fish and play with abandon. Our boats must possess the stability, versatility and durability to do anything and go anywhere. And perhaps above all, a Crestliner must be

a family-friendly boat—as well-equipped to captivate a brood of kids as it is to stalk trophy fish.

That's what our Built Right philosophy is all about: Crestliners aren't just well-constructed, they're built to support your unique style of on-water recreation. This truth plays out on waterways across the globe, where owners rely on their Crestliners for hardcore angling, adrenaline-pumping watersports and day-long comfort on family outings (page 14). As I begin my tenure at the helm of Crestliner, I couldn't be prouder of the job we're doing to help make time spent on the water with friends and loved ones as memorable as possible.

#### THE LATEST

NEWS, GEAR AND ADVICE FROM THE FOREFRONT OF THE FISHING UNIVERSE.

#### **Command Center**

Offshore waters can be fierce, but the spoils are legendary. Fear not, the all-new Crestliner 2200 Bay is up to the task; this unprecedented aluminum-hulled, center-console bay boat is ideal for rugged intercoastal fishing.

"Whether you want to fish the backwater, bays or just offshore, the 2200 Bay was designed to get you where you want to go," says Crestliner Product Manager Christine Bush. "A fiberglass naval architect worked with our engineering team to design a four-piece hull that cuts through the chop and gets you to the fish faster."

The 2200 was forged by the same dedication to rock-solid, Built Right construction as the rest of the Crestliner lineup, with a self-bailing aluminum deep-V hull; an open, fishing-friendly layout; and a feature-rich helm built on a molded fiberglass center console. The result is the best of both worlds: a rugged fishing machine sporting a fiberglass look and feel, with all the durability and value of aluminum construction.

#### **TAKE CHARGE**

Late in the season, the weather can turn in an instant. When brewing storms bring rough chop, the DieHard AGM Platinum Marine & RV battery powers through. This battery was designed specifically to perform at optimal levels in rough conditions. Corrosion-resistant brass terminals inside the casing ensure your Crestliner will start, while the military-grade protective shell provides superior vibration resistance. Between seasons, the 99.99 percent virgin lead plates deliver 30 percent more reserve capacity than spiral AGM batteries—so your battery doesn't lose recharge or start-up efficiency the next time you put your Crestliner in the water. No matter the conditions, the DieHard Platinum Marine & RV Battery will power your next adventure.

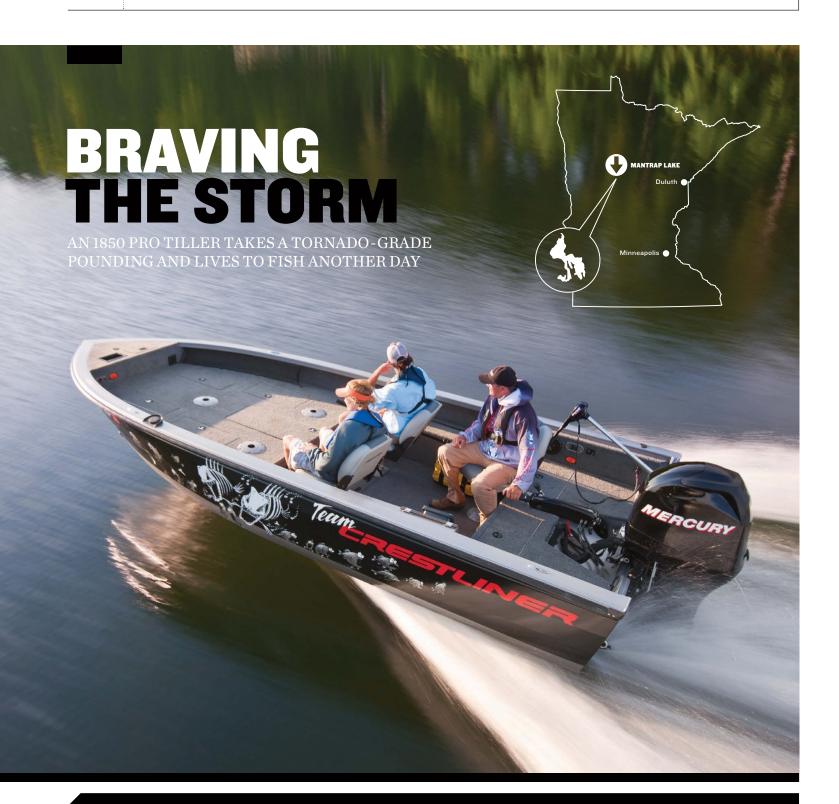

### WEAR YOUR CRESTLINER PRIDE

Crestliner's line of branded apparel features T-shirts, hooded sweatshirts, hats, rain jackets and more—and each comes in a variety of colors and designs. For the cooler climes ahead, pull on a hooded sweatshirt, available for men and women, each emblazoned with the famous Crestliner name. New additions and designs offer something for everyone, in every climate. See more on catalog page 65; the full collection is at www.crestliner.com/gear.

WRITTEN BY ROGER KAMHOLZ PHOTOGRAPHY BY JOHN LINN AND COURTESY OF JASON DURHAM

SEE MORE OF THE 1850 PRO TILLER ON PAGE 30 OF THE CATALOG

uly 2, 2012, looked like an ordinary day for Crestliner Pro Team member Jason Durham. The veteran guide embarked on an evening excursion on Minnesota's Mantrap Lake with four guests of his Go Fish! Guide Service. Welcomed by a clear sky, warm weather and a lake full of active fish, the group set out in search of big northern pike and the most elusive of all freshwater fish, muskies.

Two hours into the trip, the group heard thunder—odd considering there wasn't a cloud in sight. Then Jason witnessed a lightning bolt strike a tree on shore. "Reel 'em in," Jason advised, "we're done."

Jason quickly piloted his Crestliner 1850 Pro Tiller, a boat designed to take on the elements, toward the guests' dock, a half mile away. "Will you be able to make it back to the public access?" a guest asked as the group of Go Fish! clients disembarked. "I'll be fine," Jason replied.

Little did he know that a massive storm loomed. As he navigated the tricky channels and bays that make "Mantrap" Lake an apt name, the lightning started coming quicker. Skeins of electricity knotted sky to land every couple of seconds. So Jason did what any responsible angler should do: he went to shore. "I beached the boat on the only rocky shoreline of the lake," he recalled. "There was about 30 feet of grass, then thousands of mature jackpine trees behind me. For a while things were safe on shore. I even took a video of the lightning with my cell phone. But then things turned much worse."

A dark, writhing cloud approached. "It sounded like a freight train. I could hear a tornado siren from Camp Wilderness, the Boy Scout Camp a few miles away. Weather radios bleeped announcements at the resort up the hill." Jason texted his wife a simple but sincere message. With no cell phone reception, he assumed the message would eventually be delivered. He typed, "I'm on shore, I can hear a tornado approaching. I love you."

Eighty-mph winds soon tossed the 1850 Pro Tiller onto the rocks. "I tried to straighten it out, but it nearly crushed me twice," he said. "So I let it weather the storm. A good insurance policy can replace a boat, but can't

Fishing guide and Crestliner Pro Team member Jason Durham (right) still uses the 1850 Pro Tiller battered (but not compromised) by a violent summer storm last year.

replace me. I've never been so scared in my entire life. I guessed that I'd either get picked up by a tornado, struck by lightning, or one of the nearby trees would fall and land on me."

As the wind and rain hit, Jason laid face-down, spread-eagle on the shoreline. He could only watch as the storm beat his Crestliner into the rocks. Then he heard an engine running. "I saw a man who had driven down to shore on an ATV to retrieve two northern pike clipped to a stringer on the resort dock. He didn't want to lose them in the storm." He spotted Jason as he fought the wind back to his ATV. "'You'd better come with me.' he said. I looked up at him and replied, 'Yes sir.'"

Jason safely waited out the violent weather in the man's cabin at the resort. After more than an hour, the wind and rain subsided and Jason had the chance to go home. "I was relieved," he recalled. "I honestly didn't think I would survive the storm."

He returned to shore and inspected the Crestliner's exterior. "Everything initially looked good. The hullside paint was pristine, and when I drove it the several miles back to the public access, I didn't notice any loss in performance." But after putting the boat on its trailer, Jason's stomach lurched. "I looked

"IT SOUNDED LIKE A
FREIGHT TRAIN. I COULD
HEAR A TORNADO
SIREN FROM CAMP
WILDERNESS, THE BOY
SCOUT CAMP A FEW
MILES AWAY."

at the hull and felt sick. It looked like someone had flipped the boat upside down and spiked bowling balls on it." The rocks had put dozens of dents in the boat.

Yet the hull integrity wasn't compromised. No cracks, no holes. All of the welds remained intact. Jason notified his insurance company, had the vessel inspected by Crestliner and operated the boat for the remainder of the season without repairs. "I couldn't ask for a better boat," he said. "Talk about solid craftsmanship. I can't think of another boat that not only could have survived the storm, but got me back on the water each day. Thanks, Crestliner!"

## **BOLD MOVES**

WITH AN INTREPID STYLE, CRESTLINER PRO TEAM MEMBER JOHN COX TAKES NAMES ON THE FLW TOUR

hen he was young, professional angler and Crestliner owner John Cox wanted to be like all the other boys in his neighbor-

hood. He wanted to play baseball. Instead, his parents sent him out on the lake with a 12-foot aluminum boat powered by a 5-hp motor and told him to catch bass. And catch bass he did. Now, more than a decade later, he's one of the top bass fishermen to watch on the prestigious FLW tournament circuit.

You could say his early start on the path to pro fishing paid off. Since joining FLW back in 2004, the DeBary, Florida, native has raked in \$320,000 in tourney cash and was named Angler of the Year in the 2010 FLW Series Eastern Division. John has snagged 14 top-10 finishes, including three on the FLW Tour in three years. He holds two Bass Fishing League titles and a 2011 FLW Tour victory on the Red River in Louisiana. After finishing second overall in points during the 2012 FLW Tour Open yearend standings, John returned to the Red River for the 2013 Walmart Forrest Wood Cup, one of the sport's most coveted prizes.

John's Crestliner VT 19 with a 150-hp Mercury FourStroke served John well at the event. Although he finished 16th, he tucked the boat into honey holes other anglers could only dream of going into. "Some of the stuff

#### WRITTEN BY **JENNIFER CHESAK**PHOTOGRAPHY COURTESY OF FLW

SEE MORE OF THE VT 19 ON PAGE 46 OF THE CATALOG

we ran the boat through," he says, "you'd think you wouldn't be able to go any farther or get back out. But I'd just get it right back up on plane." John's tricky maneuvers have garnered him fame throughout the FLW.

You can see John on YouTube pilot his first Crestliner, a CX 17, through a large but nearly impassible culvert. Catches from that gambit put him in good standing for the first two days of the 2011 FLW Tour. Fast forward to the 2013 Forrest Wood Cup; John headed back to the same culvert during pre-practice—this time on his VT 19. But a repeat performance was stymied. "When I saw that they had put a smaller pipe in and put the old pipe up on the bank," John says of the property owners, "it was heartbreaking."

With a buddy, John bought the CX 17 two years ago to use for alligator hunting. But when John ended up winning that 2011 FLW Tour, he knew he wanted to stick with Crestliner. "I was on the phone with them right after the tournament, talking about my next boat," he says.

The new VT 19 features twin Power Poles and Lowrance touchscreen electronics. "On the Red River, you're at a huge advantage in an aluminum boat," John says. "There are so many stumps. I can run the Crestliner aground and not have any problems. You can get your stuff unstuck pretty easily."

Beyond training for and competing in tournaments, John uses the VT 19 to guide on Florida's Lake Okeechobee, where he says Crestliners are gaining popularity and turning heads. "I'll go out now and see six or more of them," he says. "And people always stop and ask me about mine."

Surprisingly, John won't hesitate to share his tried-and-true tackle philosophy with customers and fans. "I probably have the simplest tackle out of everyone," he says. "Other guys fill every tackle compartment with every available lure in hundreds of colors. But the key is not to overthink it. I keep it simple and try not to spend a lot of cash."

As a value-conscious angler, John raves about the Crestliner's great gas mileage. "During a tournament, I can travel just as far as the other guys," he says of the competitors who fish on fiberglass-hulled boats. The cost break on fuel helps keep his guiding business lucrative. "I can put \$20 in it, and we'll be out all day," John adds. The lightweight Crestliner is also ideal for trailering to and from far-flung tourneys. "Pulling the VT 19, my truck gets almost the same gas mileage as not pulling a boat," he adds.

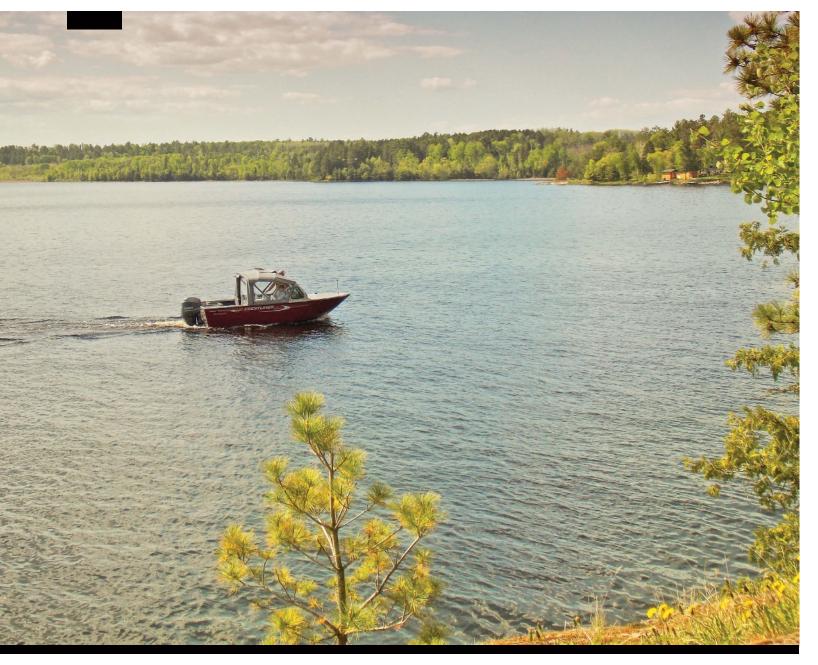

John is also a busy father of two. Daughters Lily (2) and Savannah (4) often help Dad practice for tournaments. "Savannah will go out with me every other day," John says, "but Lily, she just wants to jump in all the time. I never realized how crazy kids are," he adds with a laugh. "Now I get why my parents would just drop me off in the morning at a local jon boat tournament. But, hey, I was happy. When you're 13 and you win that \$300 prize, it's like a fortune."

(Opposite) Crestliner pro John Cox fishing in the thick grasses of Florida's Lake Okeechobee. (Above) John hoists up two impressive fish during a tourney on Michigan's Detroit River.

## A LIFE WITH CRESTLINER

A BRAND-NEW 1850 COMMANDER PROVES A PERFECT FIT FOR LONGTIME CRESTLINER OWNER CAROL SETZEPFANDT, WHO TURNS 90 THIS YEAR

rane Lake lies just a few miles from the border Minnesota shares with Canada. The state's northern frontier is a wash of small, interconnected water bodies, and from Crane you can cruise and portage your way throughout the region, reaching destinations like Sand Point Lake to the north and Kabetogama Lake to the west. A trek farther afield, including a short overland crossing at Kettle Falls, delivers you to Canada's scenic Rainy Lake, prized for its exceptional fishing.

The area's wealth of picturesque cruising grounds and teeming fishing holes lured Carol Setzepfandt and her late husband, Alvin, to spend their summers on Crane Lake. In 1982 the Setzepfandts built a cabin on the southern side of Bear Island, a rocky jut of land in the middle of Crane that's only reachable by boat. Over the ensuing decades the couple owned three Crestliners—a side-console Voyageur 18, followed by an 18 Phantom, purchased around 1987, followed by a 1992 196 Phantom SST—in order to commute to and from Bear Island and explore the pine-scented promise of their surroundings together.

Prior to retirement, the couple ran a large-animal veterinary practice for many years out of their home in Bird Island, Minnesota, not far outside the Twin Cities. Alvin, better known as "Setze" to his friends and family, was a pillar of his community; in addition to his work as a vet, he held many positions in Minnesota government, including mayor of Bird Island, state representative and state senator. Setze passed away this past winter. Carol-who turns 90 years old in November and remains impressively active and independent for a near nonagenarian-decided after her husband's death that it was time she got a new Crestliner. The ideal model not only had to satisfy her current lifestyle and needs, it also had to serve her seven grandkids and eight great grandkids equally well for years to come. "I wanted it for my kids, my grandkids and my great grandkids to have when they use this place, if I'm not around someday," Carol says. "I was just looking forward to having something that is very well-built, strong and safe."

WRITTEN BY ROGER KAMHOLZ
PHOTOGRAPHY COURTESY OF PAUL SETZEPFANDT
SEE MORE OF THE 1850 COMMANDER ON PAGE 16 OF THE CATALOG

Reading about the brand's latest models, Carol came across Crestliner's ultra rugged 1850 Commander. It seemed liked just what she was looking for: durable, stable and family-friendly. With help from her grandson Wilson as well as salesman Jeff Sanborn of Handberg's Marine Inc., her Crestliner dealer on Crane Lake, Carol visited the Duluth Boat Show early this year to see the Commander in person. She was immediately sold. When Carol made the annual trip up to the cabin in June, she first stopped at Handberg's to take delivery of her new 1850 Commander, which Jeff had ready and waiting.

The new Crestliner is Carol's ticket to a full docket of social engagements. "There's something going on all the time," Carol says of life on the lake. "I play bridge every Wednesday at Nelson's Lodge"-a waterside resort a short boat ride from Carol's home. She also takes the Commander to visit friends who also live on Crane Lake. One day this summer, she met up with a pilot friend of hers and scored a ride on his floatplane. But Carol has the most fun when her family visits. For a week over the Fourth of July holiday, a bunch of her grandkids stayed at the cabin and used the Crestliner for everything from fishing to tubing to cruising around the lake. "I'm just very pleased with it," Carol says of the 1850 Commander. Besides the Crestliner's rock-solid stability, Carol appreciates the easy-to-operate fluid steering, and how easy it is for her to board and dock the

"BESIDES THE

THE BOAT."

boat. "I'm fairly old, so I think it was good for me to have something as sturdy and strong as I could manage." Carol's son Paul can vouch for that. During his family's recent visit to the cabin, "We had a tough time getting her away from the steering wheel," he says with a laugh.

(Above) Carol beside her 1850 Commander.

What do you get when a group of the best minds in boating reimagines some of the most storied craft on the water?

A:

# An All-Star A

CRESTLINER IS FIELDING A 2014 LINEUP STACKED WITH BRAND-NEW BOATS THAT TAKE SPORT, FAMILY-FRIENDLY VERSATILITY AND ROCK-SOLID RELIABILITY TO NEW HEIGHTS

as that Sportfish been hitting the gym lately? The VT and TC are looking awfully fit, too. And those Fish Hawks? Best shape they've ever been in. The scouting report is in, and Crestliner's redesigned model families for 2014 are poised to dominate the field, boasting all the tools to perform on the water no matter what you get in to. Fishing, cruising, pulling skiers, big family outings...you can call that a good start.

The barrage of updates Crestliner has made to its lineup is evidence of a tireless commitment to active families who want the most out of their boats. These are the folks who live for their time on the water and demand that their boat be able to keep up with their diverse pursuits. So with a focus on flexibility and family fun, Crestliner set to work revamping the Sportfish and Fish Hawk families from its Deep-V line, as well as the VT series models and TC 18 from its Mod-V line. Crestliner's product team, led by Product Manager Christine Bush, leaned on a trove of customer feedback to help identify game-changing refinements. The results are pretty formidable if you're the competition. If boats had trading cards, you'd be smart to keep those for Crestliner's new boats in mint condition.

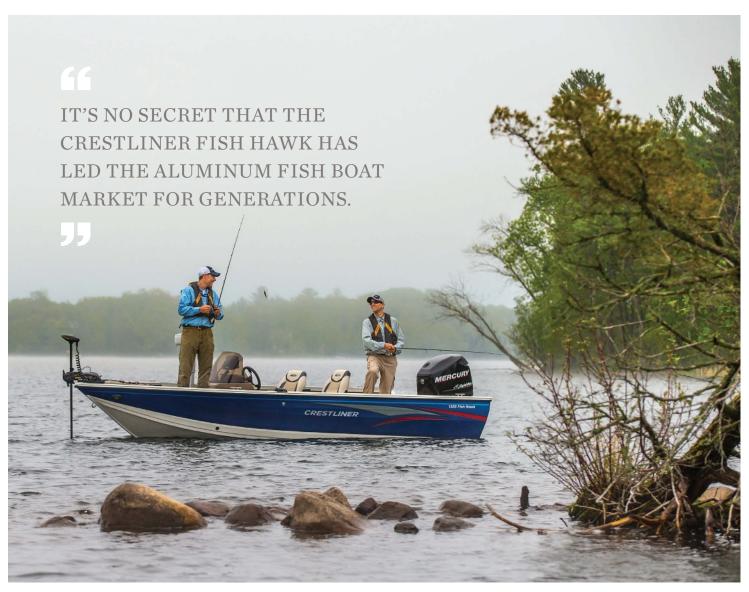

#### **SPORTFISH**

"The Sportfish is perfect for those who want

the flexibility to do it all and turn some heads while doing it," Christine says. "The smooth, all-welded hull gives a high-end look and feel. The custom Crestliner gunnel further blurs the line between the look of fiberglass and aluminum." The Sportfish has just as much "inner" beauty, thanks to handsome stitched vinyl-wrap panels and a visor along the consoles.

But looks, while they might be great, aren't everything, right? All three models in the family—the 2150, 1950 and 1850—have undergone major functional enhancements, as well. The gunnel accommodates Crestliner's patented J-hook canvas, and can be outfitted with removable aluminum brackets that mount in Crestliner's SureMount Gunnel system.

Always known for versatile seating, the Sportfish models now feature a three-seat bow conversion and wraparound backrests on the two console-abutting seats. Ample foredeck storage can be converted to an optional anchor locker. In fact, if dropping anchor and coving

(ABOVE) The all-new, wider-hulled 1850 Fish Hawk. (RIGHT) The more spacious 2014 TC 18.

is your thing, opt for the available six-speaker audio upgrade and removable bow/cockpit table. Oh, and don't forget the cooler, which comes standard.

It wouldn't be a Sportfish without serious angling prowess, and this year's models don't disappoint. Witness the large center stern livewell, port bow livewell, stern storage compartments, dual pedestal seat bases, an optional kicker motor, and both port and infloor rod storage compartments.

Watersports received just as much consideration. A central in-floor locker is big enough for skis or fishing rods; a removable ski pylon is ideal for towing skiers and wakeboarders; and a stern swim platform provides quick and easy water access. Adds Christine, "With all of these multi-functional features,

it makes it easy for dedicated anglers and avid watersports enthusiasts to coexist in the Sportfish."

#### **FISH HAWK**

"It's no secret that the Crestliner Fish Hawk has led the aluminum fish boat market for generations," Christine says. "That's because each redesign has been engineered to better anticipate the needs of the avid angler. The result has been a continual introduction of one innovation after another."

The 1850 and 1750 Fish Hawks are both all-new for '14, starting with their hulls—each a full 7 inches wider at the consoles for more cockpit space and the ultimate in confidence-boosting stability. Crestliner has also increased the capacity of storage units and added a special portside dry-storage unit.

The centerline rod storage is now best-in-class: it fits five 7-foot rods and five 7-foot, 6-inch rods. "Longer rods can be stored in the port locker or on top, secured by the rod saver strap, while still leaving tons of storage space for your gear in the remaining compartments," Christine notes. "And fishermen will really love the console. The sleek design allows for large electronics above the gauges and still provides space for secondary electronics off to the side."

Several more unique features set the new Fish Hawks apart from the rest—for instance, a foredeck anchor locker, bow baitwell and, most impressive of all, an optional 57-inch muskie livewell (available on the 1850 only). That's where the trophies go, sports fans.

#### **VT SERIES**

Bass boats don't come truer to their purpose than the super-sleek, super-sporty Crestliner VT 19 and VT 17, both of which have been heavily tooled up for the 2014 model year. Consider the oversized livewell, recessed trolling motor foot pedal and generous rod storage (VT 17: 7 feet, 6 inches; VT 19: 8 feet).

To navigate waterways with confidence and precision, Christine explains, "We integrate a welded full-length keel extrusion and six formed-in strakes for maximum strength and precision tracking in the water." And with a maximum HP rating of 80 and 150 for the VT 17 and VT 19, respectively, you'll be able to get on the fish faster than an Indy car screeches down a track.

The starboard console sports a new design, with space to flush-mount up to 7-inch electronics, a standard "visor" or optional "windscreen," and a full gauge array. The factory or your Crestliner dealer can install an optional port console in the VT 19 if you prefer additional cockpit storage and wind protection. And like the new Sportfish and Fish Hawk models, the 2014 VT Series boats feature gunnels with interior accessory tracks for Crestliner's SureMount Gunnel system.

For the serious bass fisherman, all these enhancements promise to seriously up your game—even if that happens to be a night game. "We even have features like optional blue LED lighting to enhance your night-fishing experience," Christine adds.

#### TC 18

"The TC 18 is a true tournament-grade crappie boat," Christine explains. "We don't just add a couple of features to our bass boat and call it a crappie boat. Unlike our competition, we designed a boat that is true to the needs of the crappie fisherman."

That specialized design includes two full-sized livewells with bait buckets—so you have the maximum capacity available to stow

your catch—a portside rod box, a low bow deck for an increased feeling of security when fishing from the bow, and three bow pedestal mounts for positioning the standard pair of Deluxe fishing seats. With that kind of flex in the seating configuration, you're guaranteed maximum comfort while spider rigging with your favorite fishing partner.

Jump aboard the new TC 18 and you'll instantly notice that its wide-beam design goes all the way through this all-aluminum boat, leaving passengers with more room to maneuver and, ultimately, feeling more comfortable and secure throughout spirited, daylong excursions. In fact, "the TC 18 boasts best-in-class stability when fishing multiple anglers from the bow," Christine notes. And the TC 18 and both VT models are available in new carpet-free Crest-Liner finishes: poly texture with white, silver metallic or camouflage interiors, with matching exterior paint.

Christine can't help but smile while surveying the winning team of new Crestliners. "We are always looking for ways to better serve our customers' desire to get the most out of boating," she says. "They have understandably high expectations, and I think we hit the ball out of the park with our latest fleet."

### VERSATILITY IS A VIRTUE.

#### WHEN A WATERCRAFT IS MASTERFULLY BUILT, WITH EQUAL CONSIDERATION

FOR GENEROUS INTERIOR SPACE, ABUNDANT STORAGE, ROBUST STABILITY, AND A WELDED, ALUMINUM DESIGN, YOU HAVE MORE THAN JUST A JUGGERNAUT OF A FISHING BOAT—YOU HAVE A CRESTLINER. A DO-IT-ALL VESSEL. WE SCOUTED DEEP-V BOAT OWNERS FROM ALL REGIONS OF NORTH AMERICA TO SEE HOW CRESTLINER FAITHFUL USE THEIR RAPTORS, FISH HAWKS AND SUPER HAWKS AS ALL-DAY, ALL-PURPOSE SPORT VESSELS. WHAT WE FOUND WAS NO SURPRISE: FROM TEXAS ALL THE WAY TO SASKATCHEWAN, THE CRESTLINER LINEUP IS MAKING WAVES AROUND THE CONTINENT.

#### JOHNSTOWN, COLORADO

Ask Colorado Boat Center founder Tom Smith about boaters' favorite on-water activities in the Johnstown area, and he'll swiftly reply, "That's a loaded question." The reason being, there is so much to do on the myriad inland lakes—Boyd Lake and Horsetooth Reservoir are favorite spots—that typecasting a Coloradan's boating preferences is a cardinal sin. These are boaters who expect a lot from their boats, which is why Crestliner proves to be a perfect match.

Wesley and Kathleen Hopson, owners of a 2013 1750 Fish Hawk, had a fairly comprehensive checklist when they were shopping around for their new boat. Ample rod storage? Check. Several livewells for bait or lunch? Check. Tow power for tubing? Check.

The Fish Hawk has been the perfect vehicle for converting his wife into a fishing pro,

Wesley explains, "as long as I can get the fish to bite! If the fish are quiet, she will relax and read, but usually we both have two poles out and we're trolling."

With six grandchildren who visit regularly, the Hopsons take watersports just as seriously. "Whenever the grandkids are out, we will pull tubes with the boat. That's the main thing whenever they come see grandma and poppa: you got to get out on the boat because we're going to fish and we're going to play."

(Below) Gary Staral and his sons aboard the family's 1850 Raptor. (Right) The Hungles show off a recent catch aboard their 1850 Super Hawk.

#### WEST BEND, WISCONSIN

Gary Staral is a fisherman through and through, and this is the reason he recently purchased his 1850 Raptor. Fishing roughly 75 times a year, Gary needed a boat that was up to the challenge of Great Lakes chop and able to navigate the tight spots of inland lakes around West Bend.

Gary's old high-school friend and current marine dealer, Brian Bell of Cedar Lakes Sales, knew exactly what to prescribe for Gary's durability needs. "When you hit a wave with a Crestliner, you feel like you've got something solid and substantial beneath you," Brian says. "That's not always the case with a fishing boat, but it should be."

With its wide-deck design and sturdy, all-aluminum deep-V hull, the 1850 Raptor allows Gary to conquer modest and sizable waters alike. And with its roomy center rod storage that can hold 10 rods, he doesn't have to repack all of his gear when he trailers the boat for an extended excursion.

"I can go a hundred miles away to Green Bay and have all my rods. We're trolling for walleyes, and then we'll stop and fish for smallmouth bass. We can change up, and I have got everything right with me. I will go up with my boys and there will be three of us in the boat and it is really comfortable"

Occasionally Gary and his sons boat even farther from home. "Earlier this year I was out in Lake Erie, where me and the boys worked the boat hard in rough water and had fun catching a lot of walleyes."

#### REGINA, SASKATCHEWAN

In the Canadian prairies, you can expect three things: blustery winds year-round, cold temperatures that bookend the summer season and boaters who thrive in these conditions.

Mike Hungle, a dedicated fisherman, says he purchased his 1850 Super Hawk from Regina Marine with his family in mind. "The deep-V and high freeboard make it a very safe boat. About the third time out on our Super Hawk, we got into some serious chop, and the boat just plowed right across. We didn't feel uncomfortable at all. It is perfect for families"

Mike has a seasonal campsite on Crooked Lake—about a two-hour drive from Regina—where he brings the family for a slew of on-water pastimes. He animates as he outlines his summertime itinerary: "The day starts out with fishing in the morning, and then watersports in the afternoon. My daughter likes to kneeboard, my son likes to wakeboard, and then we will wrap the day up with an evening of fishing."

As a final thought about his Super Hawk's versatility, he adds, "It's funny, almost every time I am on the water or on the launch, someone will say, 'Wow, that is a nice boat!" Mike definitely agrees.

#### MARSHALL, TEXAS

The lakes around the Marshall area teem with white perch and catfish, at least until the Texas heat skyrockets toward 100 degrees and the fish start to scatter. If you grace the water

at the right time, you could easily fill a livewell.

During a particularly fruitful weekend on Wright Patman Lake, just west of the Arkansas border, Keith Franks reeled in about 100 catfish aboard his 1650 Fish Hawk, bought from H & W Marine. Alas, those were halcyon times; the fish were still biting then.

"THE DAY STARTS OUT WITH FISHING IN THE MORNING, AND THEN WATERSPORTS IN THE AFTERNOON. MY DAUGHTER LIKES TO KNEEBOARD, MY SON LIKES TO WAKEBOARD, AND THEN WE WILL WRAP THE DAY UP WITH AN EVENING OF FISHING."

"These past few weeks it's been too hot to fish, so I just put on my bimini top and ride around," Keith says. "A group of us will take a few boats and just go cruise the Lake Caddo backwaters and take in the scenery and relax."

Keith and his wife, Amy, have been honing their fishing chops all season, but lately they've been content to use their spacious Crestliner to kick back and hang out. "I grew up doing a lot of cat fishing," Keith says. "But lately, I have been getting good at just riding around and cooling off."

## Built Right for your brand of boating.

Sure, our boats are incredibly tough. But providing anglers and active families with a rock-solid boat isn't enough for Crestliner. Our Built Right philosophy dictates that Crestliner boats are designed and constructed to fulfill your specific boating and fishing aspirations, be that serious angling, family cruising with a side of watersports, carefree and comfortable lounging, or a combination of all three. The unparalleled versatility of Crestliner delivers the full promise of the on-water life, at an exceptional value.

1

#### THE STRONGEST, TIGHTEST BONDS

You love to be active on the water with friends and family. The durability, solid construction and supreme stability of a Crestliner creates a safe, secure ride for your crew. So go ahead, navigate all types of water and weather conditions—running with Crestliner inspires the confidence that you can always handle whatever comes your way. Connecting with the ones you care about is your reward.

2

#### **A SERIOUS FISHING RIG**

Crestliner knows fishing. Our intelligence is the result of more than 65 years of industry expertise coupled with a team of pro anglers who compete at the sport's highest levels. In tandem with our product developers, they bring their experience to bear on new Crestliner products, leading to an always-evolving fleet of durable, reliable and, above all, smartly crafted fishing machines that suit your family's needs.

3

#### HIGH PERFORMANCE, THRILL OF FREEDOM

A Crestliner lets you do anything and go anywhere. Sleek, sporty design and all-around functionality across a range of fishing and watersports activities seamlessly support your most ambitious days on the water. Versatile deck configurations, copious storage and open layouts allow you to easily shift between the pursuits you love. Just be warned: that kind of freedom can be addictive, and don't be surprised to find family and friends coming back for more.

## YOU DON'T COMPROMISE,

SO OF COURSE YOU DEMAND THE SAME FROM US. WITH AN ACTIVE FAMILY WHO CAN'T GET ENOUGH OF LIFE ON THE WATER, YOU NEED A BOAT THAT COMBINES SOLID CONSTRUCTION, THE UTMOST VERSATILITY, SUPERIOR STABILITY, SLEEK DESIGN AND ALL-CONDITIONS PERFORMANCE. NOTHING LESS WILL DO. ENTER CRESTLINER. WE BUILD EVERY BOAT RIGHT, DELIVERING UNMATCHED DURABILITY, SAFE AND COMFORTABLE DESIGN, AND FAMILY-FRIENDLY VALUE. THIS IS HOW WE DO IT.

#### DOUBLE-WELDED TRANSOM

Crestliner double-welds transoms both inside and out with a continuous seam for twice the strength of "stitch" welded competitive designs or others who simply weld one side.

#### **CONTINUOUS WELDING PROCESS**

While others choose to stitch weld or drill hundreds of holes, we employ handcrafted, continuously welded seams for unbeatable strength and durability.

A continuous weld not only ensures unbeatable strength and longevity. It forms a watertight seal.

An integrated one-piece extruded keel provides unmatched durability and toughness.

#### **EXTRUDED FULL LENGTH KEEL**

No other area is subjected to more punishment and abuse than the keel. Our one-piece extruded keel is integrated into the hull instead of a "tacked-on" afterthought for unmatched durablity and toughness.

#### INTERLOCKING TONGUE-AND-GROOVE CONSTRUCTION

By joining the hull together with interlocking channels and then continuously welding the seam the entire length of the hull, we create a bond stronger and more precise than any other competitive butt-welded or riveted design.

#### FOUR-X-HULL

Our Four-X-Hull, made up of four interlocked pieces of quality heavy-duty aluminum, allows our engineers to construct perfect hull geometry with integrated Spray Rails for a dry ride, and a Variable Degree Deadrise for near-instant plane and unmatched stability. Variable Degree Deadrise increases gradually from stern to bow.

Integrated Spray Rails force water down and away for a drier ride.

Variable Degree Deadrise allows for instant planing and unmatched stability.

#### **INDUSTRY'S STRONGEST WARRANTY**

In addition to a lifetime hull warranty, Crestliner deep-V boats carry a 10-year warranty on the interior frame construction, and a full 3-year bow-to-stern warranty on virtually everything else. It gets even better...Crestliner's unbeatable warranty is also transferable.

#### **REFINED FINISH**

Crestliner hand-sands the entire hull for superior paint adhesion before automotivequality paint is baked-on for a durable, high-gloss finish. No sharp edges or exposed rivets to snag lines or impede performance.

#### **VERSATILE DECK CONFIGURATIONS**

With a multitude of deck and console configurations, seating options, intelligent storage solutions, and open cockpit designs, our boats are designed for every need and every boater.

#### **INDUSTRY-LEADING INNOVATIONS**

From our patented conversion bow and Space Saver Transom (SST) to our new SureMount Gunnel system, Crestliner boats are intelligently designed with innovative, proven features you can use, not gimmicks.

## **Sportfish**

MODEL > 2150

#### **KEY FEATURES**

1450 SPORTSMAN WT W/FLAT FLOOR

Welded aluminum hull is easy to handle.

Designated fuel tank and battery storage platform located to aft port.

Optional flat floor w/ walk-through seats and optional under-seat storage.

Optional deluxe fishing seat w/ pedestal for bow platform, side console and flat floor.

## Features & Options

Below are just some of the features and options available to tailor your Crestliner to your personal style of boating and fishing. For more information please visit www.crestliner.com

\*Not all features are available on all boats.

SUREMOUNT GUNNEL SYSTEM Includes removable SureMount aluminum accessory brackets that slide your favorite accessories along the gunnel for perfect placement.

**DOWNRIGGER BRACKET** Customized to fit the gunnel for easy mounting, the Downrigger Bracket helps to enhance your deep-water fishing game.

**ANCHOR LOCKER** An innovative feature, the optional anchor system occupies a forward bulkhead and includes a Danforth anchor, bollard, anchor roller and tie-off cleat.

**NORTHWEST PACKAGE** With the Northwest Package, vinyl replaces carpet on platforms and floor. Cockpit-only vinyl also available.

**SNAP-IN CARPET** For extra comfort underfoot, add Snap-In Carpet runners, custom-fitted to your Crestliner. Available for models with vinyl flooring.

**BUTT SEAT** Crestliner's Butt Seat gives fishermen a sturdy spot to sit or lean against (when rotated I80 degrees).

**DELUXE SEAT** The Deluxe Seat is extra wide for added comfort. The cushioned backrest conveniently folds down.

**PRO SEAT** Fishermen on longer treks will appreciate the additional support of the high-backed Pro-Style Seats.

**RECLINING CAPTAIN'S CHAIR** Dual armrests and supple cushioning make the Reclining Captain's Chair a popular choice among anglers who value comfort.

#### > INNOVATION AFTER INNOVATION

**SPACE SAVER TRANSOM** Includes a new water-access system with non-skid cut-away step, angled swim platform and under-mounted boarding ladder.

**BOW PLATFORM PAD** The Bow Platform Pad with bolsters creates a spacious lounge area and cushioned sundeck atop the bow platform.

**BOW CARGO NET** Keep commonly used items secure, out of the way and still visible with under-gunnel Bow Cargo Netting.

**WASHDOWN SYSTEM** Easily hose down your Crestliner after a tough day of fishing with the heavy-duty Washdown System.

**REMOVABLE SKI PYLON** All types of watersports are in reach with the optional Ski Pylon.

**MAD FISH GRAPHICS** Show your love for Team Crestliner, while showing the competition that you mean business, with ferocious Mad Fish Graphics.

**ANGLER'S EDGE WRAP** The Angler's Edge Wrap has a dynamic look that says serious fishing.

**TRAVEL COVER WITH "J" HOOK** The snug, custom-cut travel cover attaches securely to extruded gunnels with easy on/off snapless "J" hooks.

**FULL CANVAS** Available options include side curtains, aft curtain, sun top, bimini top and tonneau cover. Covers attach securely to extruded gunnels thanks to Crestliner's easy on/off snapless "J" hooks.

## Features & Options

These are just some of the features and options available. Please see the Crestliner website and your local dealer for more information. Some features/options may change based on layout.

# Built Right to exceed expectations.

Whether you take to the water for fun, for sport or simply for relaxation, there is a Crestliner to support your style of boating and fishing. That's the foundation of our Built Right philosophy. We say, why can't a competition bass boat also be family-friendly and affordable? Shouldn't a rugged utility boat also be comfortable? With Crestliner, there are no limits, no settling for less. So go, realize the full potential of your on-water life. Go with Crestliner.

1

#### THE STRONGEST. TIGHTEST BONDS

You love to be active on the water. The durability, solid construction and supreme stability of a Crestliner creates a safe, secure ride for your family and friends. So go ahead, navigate all types of water and weather conditions—running with Crestliner inspires the confidence that you can always handle whatever comes your way. Connecting with the ones you care about is your reward.

2

#### A SERIOUS FISHING RIG

Crestliner knows fishing. And our intelligence isn't just the result of more than 65 years of industry expertise. Our team of pro anglers compete at the sport's highest levels. In tandem with our product developers, they bring their experience to bear on new Crestliner products, leading to an always-evolving fleet of durable, reliable and, above all, smartly crafted fishing machines.

3

#### HIGH PERFORMANCE, THRILL OF FREEDOM

A Crestliner lets you do anything and go anywhere. Sleek, sporty design and all-around functionality across a range of fishing and watersports activities seamlessly support your most ambitious days on the water. Versatile deck configurations, copious storage and open layouts allow you to easily shift between the pursuits you love. Just be warned: that kind of freedom can be addictive, and don't be surprised to find family and friends coming back for more.

## **BUILT RIGHT**

CRESTLINER'S ALUMINUM FISHING BOATS REPRESENT YEARS OF RESEARCH, DEVELOPMENT AND REFINEMENT. EACH HULL THAT LEAVES CRESTLINER'S PRODUCTION FACILITY HAS BEEN WELDED, SCRUTINIZED AND VALIDATED FOLLOWING THE MOST STRINGENT QUALITY STANDARDS. ONLY THE FINEST, MOST DURABLE MARINE-GRADE MATERIALS GO INTO A CRESTLINER. NOT A SCRAP OF WOOD, NOT AN OUNCE OF CHEAP PLASTIC.

#### THE SEAL OF QUALITY

Our philosophy is, the more a boat's components are welded together instead of riveted, the better. An intricate welded stringer system and below-floor aluminum supports make our boats incredibly strong and structurally sound.

#### FLOTATION AND STABILITY

Crestliners exceed standards for buoyancy and level flotation. Closed-cell foam injected into hull cavities helps to ensure the safety of those onboard. Stability is just as important as level flotation. Crestliner modified-V hulls have wider bottoms and wider decks.

#### FINAL ASSEMBLY

Our skilled boat builders are experienced, precise and detailed. The result is immaculate trim, rattle-free assembly and an overall sense of confidence that your boat meets the highest standards...yours.

#### **PAINT AND FINISH**

All Crestliner hulls are handsanded, then layered with highgloss, automotive-quality paint and baked for a smooth durable finish

#### HISTORY IN THE MAKING

More than 65 years of expertise are behind Crestliner's modern manufacturing techniques. Our advanced all-welded, wood-free hull construction exceeds the industry standard. Captain and crew enjoy a smooth, dry, stable ride. Our boats' winning layouts and

thoughtful feature sets get rave reviews from pro and amateur anglers alike. Crestliner's unbeatable performance, style, comfort and durability have built our reputation for more than six decades. In short, this is a platform you can trust.

#### **INDUSTRY'S STRONGEST WARRANTY**

Our boats carry a IO-year warranty on the interior frame construction, and a full 3-year bow-to-stern warranty on virtually everything else. It gets even better... Crestliner's warranty is also transferable. (Lifetime warranty differs for CR Jon boats.)

#### **REFINED FINISH**

Crestliner hand-sands the entire hull for superior paint adhesion before our automotive quality paint is baked-on for a durable, high-gloss finish. No sharp edges or exposed rivets to snag lines or impede performance.

#### **VERSATILE DECK CONFIGURATIONS**

With a multitude of deck and console configurations, seating options, intelligent storage solutions, and open cockpit designs, our boats are designed for every need and every boater.

#### **INDUSTRY-LEADING INNOVATIONS**

Thoughtful new features like our SureMount Gunnel system and SureMount aluminum accessory brackets reflect the way Crestliner pushes the boundaries of techonology and performance.

#### **KEY FEATURES**

- ➤ NEW! Gunnel accepts "J" hook travel cover and SureMount Gunnel system
- > NEW! Redesigned layout for the ultimate bass fishing experience

# Features & Options

Below are just some of the features and options available to tailor your Crestliner to your personal style of boating and fishing. For more information please visit www.crestliner.com

\*Not all features are available on all boats.

TRAVEL COVER WITH "J" HOOK The snug, custom-cut travel cover attaches securely to extruded gunnels with easy on/off snapless "J" hooks.

SUREMOUNT GUNNEL SYSTEM Includes removable SureMount aluminum accessory brackets that slide your favorite accessories along the gunnel for perfect placement.

**LOCK TRACK** A specially designed channel along the gunnel accepts removable accessories including the shotgun shell holder shown here.

**GUN BOX** Spacious, versatile and lockable storage for fishing rods and hunting equipment such as guns and ammo.

**CREST-LINER** This tough, durable, non-skid surface coating can be paired with a variety of paint colors, depending on the model.

**DELUXE SEATS** Extra wide for added comfort and stability. The cushioned backrest conveniently folds down.

**CAMO SEATS** Camouflage upholstery and a fold-down backrest deliver stealth and convenience.

**RECESSED TROLLING MOTOR PEDAL** Ergonomically positioned for easy, comfortale operation by an angler seated in the bow.

**BAY BOAT PREMIUM LEANING POST** Deluxe leaning post with removable backrest, folding footrest and four vertical rod holders.

All prices and specifications subject to change. Crestliner reserves the right to discontinue models or change prices, specifications, materials, equipment, color or design at any time without notice and without incurring obligations. Some models are shown with optional features and equipment. Outboard model weights shown in this catalog reflect the approximate weight of the boat only, and do not include weights of the outboard motor or accessories installed. All boats meet or exceed United States Coast Guard regulations and National Marine Manufacturers Association certification standards. Crestliner is so confident its products are Built Right that we offer one of the industry's best warranties to back them up. Crestliner was the first to offer a LIFETIME hull warranty to the original owner. All main seam welds are covered. Interior support construction carries a 10-year warranty. Plus, you get a 3-year bow-to-stern warranty on virtually everything else. It gets better....Crestliner's unbeatable warranty is transferable! When it's time to upgrade to a new Crestliner, you have the option to transfer the warranty to the second owner. Our proven welding techniques and innovations allow us to offer you the best warranty in the industry. (Lifetime warranty differs for CR Jon boats.) Some restrictions apply. For complete details, a copy of our limited warranty is attached to each new boat or may be obtained from your Crestliner dealer. Many boats featured in this catalog are shown with available options. See your dealer for details. Every effort was made to ensure that this information was accurate at the time of printing. Crestliner assumes no responsibility for errors in type, in print or in photos. Please follow the rules of safe boating, be courteous to others and respect the marine environment. Special thanks to Woodland Beach Resort, Deerwood, MN and Port of Kimberling Marina & Resort, Kimberling City, MO.
